KENSINGTON, N. H., February 26, 1926.

This is to certify that we have this day examined the accounts of Herbert E. Brown, Frank Philbrick, and D. Everett Palmer, selectmen; Arthur Wadleigh, treasurer, with a balance of \$703.65, Frank Kimball, tax collector; H. P. Blodgett, town clerk, and H. T. Philbrick, highway agent, Library treasurer and trustees of public funds, and find the same correctly cast and properly vouched and do hereby approve the same.

MELVIN G. ARMSTRONG,
LEVI N. SANBORN,

Auditors.

| 1. Balance from dog licenses ... | \$125.00 |
| 2. State aid allotment..... | 1,000.00 |
| | <hr/> |

Total estimated revenue to balance budget.....	\$1,125.00
--	------------

Report of Superintendent of Schools

To the School Board and Citizens of Kensington, N. H.:

I herewith submit my seventh report as superintendent of the Kensington schools.

The tables of statistics which accompany this report show clearly that the work of the teachers last year was of a high order. The attendance was the best and largest the schools have ever known and the teaching force, happily continuing with us this year, was one of the ablest. Miss Robie continues with unabated enthusiasm and ability in her thorough preparation of pupils for high school and her teaching of character and good citizenship. She does most cheerfully, ably and sometimes under great handicap a work which can be equalled by but few teachers in the state. Miss Burbeck is devotion itself to her little school and the community. She deserves the confidence which the parents of her pupils so willingly place in her, for she puts her life, not simply her time, into the school. Miss Bartlett has brought to the North School an atmosphere of thoroughness, of cleanliness, and of interest. She has faced all the storms of last year and this year. She has secured good attendance from pupils who had never given it before and she has taught old and young skilfully. In all studies and in all ways the schools are making proper progress. I only hope that our teaching force can be retained next year.

Last year at this time I spoke of the three essentials of a good school, a good teacher, an interested, willing minded body of pupils and a sufficiently long school year. I congratulate you on having attained a measure of success in these matters equalled, if at all, by only a few districts in the state. In the last five years you have, at no added expense to the district, increased the length of the school year from 160 to 181 days, a little over four weeks, of actual school, that is, with all holidays and vacations counted out. In the same period

the percentage of attendance, the item which marks the interest of parents and pupils in the school, has increased from 91 to 92.05. During this time, also, you have given wise thought to the selection of teachers. Your policy of paying the teachers a little more salary and getting in return a longer school year with the quality of teaching which only character, training and experience can give is a very wise one and the returns to the district are very large.

During the last six years you have made marked progress also in one other matter of school business only a bit less important than the employment of good teachers, that is the housing and comfort of the pupils. New sheds and toilets have been built at three school houses, and improvement in heating and ventilating has been made in two of them and a considerable sum of money has been expended on shingling, other carpenter work and painting, not to mention the minor yearly repairs.

Though having in mind the cost of all these things, I feel that my duty is not fully discharged till I recommend no let down in the quality of teaching and some repairs to buildings which seem to me to be necessary. I believe the time has come to do the following things: put a jacket on the stove at the West school, paint the West school inside and outside, remove the old and broken double desks there and install new adjustable ones, install new window shades there to replace the present ones, which are useless, remove the broken shutters in the East school and install shades, paint the unpainted wood work in toilets and elsewhere at the East school, change one window in the East school from the pupils' right to their left, install there some new black-boards, paint the unpainted wood work of the toilets at the North school, install there a dry well so that the toilets can be drained at much less expense and annoyance, and repair there a few broken desks. I believe these repairs can be made at an expenditure of \$320 for the West school, \$90 for the East school and \$60 for the North school, a total of \$470.

I would recommend too that our supply of fuel be bought, delivered, fitted and so far as possible housed in the summer. The actual building and care of the fire at the West school has, in the current year, been a great burden on the janitor. If we could have cord wood sawed into four pieces instead of two the fuel would, I am convinced, last longer and be at the same time easier to handle.

A part of the fence at the West school is much out of repair, not only making it difficult to keep pupils on the school grounds and cattle in the pasture, but presenting a disreputable appearance. It is probable that a little added expense and timely co-operation in the matter of labor between the parents of the West school pupils and the abutter to the school property there would remedy this defect.

In pursuance of a policy of reducing cost of high school tuition to state aided districts which do not maintain a high school, the State Board of Education has issued a regulation requiring that next year the School Boards in such districts must be authorized in district meeting to make contracts for high school tuition paid out of the state, and an article looking to this authorization should be inserted in the warrant of this year.

It is a privilege to serve citizens, parents and pupils who so strongly assume duties as you have done in the last few years and it is with a deep appreciation of your past and present interest that I bespeak the same procedure for the future.

Respectfully submitted,

CLIFTON A. TOWLE,

Superintendent of Supervisory Union, No. 16.

Exeter, N. H., Feb. 13, 1926.
